

AVOIDING CLEAR & PRESENT DANGER

The transparency of glass, while the perfect medium through which to view birds from your home or office, can pose a considerable danger to the birds themselves, that of collision. Make a donation to BirdLife South Africa of R60 (plus postage) and receive a pack of five decal transfers which can be adhered to your windows to reduce the risk of birds crashing into them. Donations are in support of research on and conservation of the Black Harrier.

Order your pack of five decals today by donating to BirdLife South Africa. Yours for just R60 (plus R10 postage).

YES! Please send me _____ pack/s of decals (5 decals per pack).
